pretty with short hair. Her name is Signe
also I talked to a young solicitor from
Blackheath, he seemed a nice boy I a-
mused. after lunch I had a nap & then
talked to Mrs Hansen, Ronald & Mrs
Lindo, also a little to other people whom I
knew slightly, after dinner Ronald Mrs
Hansen Mrs Dick (Norwegian) & Mrs Lindo
Mr Lindo, Mr Oswald du Port, a Woolwich
cadet. We went up on the aft deck &
played quoits, a young man whom I
had not seen before joined us, he seem-
ed very nice, we had very good fun,
played a variety of games, then someone
proposed cock fighting & 4 men went
down on the lower deck & had some bouts
besides doing other tricks, one of the ships
officers showed them a trick of walking
on their hands with their feet in a sunny
horse & shaking the limit they could
reach - the captain showed me how to
Mr Lindo lent me a cap - We spent a very plea-
sant evening afterwards, sitting up in the bow

first with Mr Lindsay & then coming back to find Ronald. Dinner. Mr & M. telling stories etc.

Sunday July 30th — Talked to Mr Lindsay, Dr Hamilton one gentleman at table whose name I do not know & to Mrs Hurlbut the lady who sits opposite to me at table. She lives in Alexandria, we told each other naughty little stories, she told me one of Bishop Littlejohn of Rhode Island, who one day when he was undressing about something said he felt like a parrot who flies, crawls, swells out like a cat & a monkey said to his owner "Now I'll have a fall of a time" - I think however my stories scored. She told me my fortune - I opened land about twelve o'clock, got up to Christiansand at five & landed. Mr & Mrs Hurlbut, Papa, Mamma, Leo, Ronald, Hamilton, Dr Stick, Mr Lindsay, Dr Hudson & I started off to see the town in a hurry. It is a straggly, cold out place, paved with cobble stones, the churches locked, etc, etc, we met several of our passengers strolling about the place, six of us went to the P.O. to send off some telegrams & had great fun. I took 3 photos. We had quite a pleasant afternoon, & we

man who looked like a ship keeper spoke to us in the park in Swedish I asked if he could direct or assist us in any way after dinner I sat with Mamma & Mrs for a time then Mrs Hansen Miss Stock Mrs Lewis at Lysaker, & Christiania, Mrs Lewis Mrs Talbot Mr Sheldon & Harold came up to me & we told stories & then sang for us, they also tried to dance but did not succeed very well, then we changed our seats & asked riddles for a long time, some of them were very good others very Catches, we were finally persuaded to go to the smoking room, as no one else was there & then we told ghost stories till I broke up the party Mr Fletcher was a very nice fellow, he guessed a board think, he would make a cadet is dreary but will improve with age.

Monday 31st Packed up before breakfast, our cabin was not very luxurious but large as the weather was so fine & smooth sea - chatted to different people, Mr Fletcher Mrs Talbot a good deal, the scenery was rare passed Drobac the rest of the N. forts lying below a very

tall hill, Ronald & Mr McCart wanted to get a contract for £20. to build another fort as this person has gone and badly placed! a great many ice houses were perched upon the shores. We got to Chamonix about 1.30 passed the customs & after numerous fairwells drove to the Grand Hotel. Papa & Mother went off to see about Times tickets & Ted Ronald & I strolled round the town, we finally got to an open steel cast round two pronged fork, you saw veg well, the streets were especially laid out, some of the houses are ornamented with stucco, the men generally have a care worn expression & the women are badly dressed. We returned to the hotel about five & when Mr. returned she & decided to go & buy some photos. Mr Talbot had waylaid her & asked us to dine with them & go to the Jardins afterwards, on our way thro' the hall we met Mr. Fletcher & Blackinds who were desiring to ask us to go with them to dine at a sort of Chalet on a hill over looking the town which they described as a

kind of earthly Paradise! after a good deal of chat Dive sent Mrs O. Bryant to consult Rio brother about the new plan, She promptly agreed & we started off Mr. Mrs Bryant Mr Fletcher & I in a cab to orders dinners, but at Kerman Lodge we were met by "Bennets" the rest of the party & Mrs first - We strolled about the gardens while Mrs L. Mrs F. & I sat on the veranda & admired the view, we had a curious repast & very good fun at it Mrs Lindo was very exhuberant & made a good deal of fun such as "arry" "exhibits at Hampstead & similar words Mr Fletcher is quieter & more gentlemanly he is an engineer has Chambers at 7 Westminster Chambers Victoria Street, I liked him & should be pleased to meet him again — The four men Ted & I strolled up to the Reservoir where there was a lovely view, then Mrs Fletcher asked me to take a photo. If we could get some magnesium wire we started off, Ted, Mr F. Mr L. & I & got in a

cab & told the man to drive to an "apotek"
he passed one pointed to it & cleverly
& pidgin Norsk entreaties & commands
murmured "Tysk" & insisted on
driving us to the theatre. I coughed
till I felt quite ill, we then walked
to a Restaurant as the man spoke
no Engs. & we no Nors. we failed to come
to a mutual understanding & an affair
we offended the man & coughing are
way after our return to the hotel, but
Mrs L. went out again to try & get me
Nut failed so we sat in the reading
room & talked till pretty late -

Aug. 2nd went out after breakfast with Mamma
& Ted & took a photo. of market place with statue of
Christian II & a circular market house. Missed
Mamma & wasted 1/2 an hour finding her. Saw
the Vikings ships, a huge half burnt boat
discov. in a tumulus, very interesting, the
museum was closed & as the picture gallery
was not open till 12 we decided to strike
out to Holmenkollen & Frognersaetus &

hill which lasted for about a mile -
The roads are very good - We stopped
at Tengnestoen 18 miles from K. to rest the
horses, the girl only spoke Norwegian & we
were rather afraid to air our Norwegian

hunger were too much for us & with the help of the phrase book we succeeded in getting some bread, butter cheese & cides — Soon after we started the rain fell in torrents but we were provided with waterproofs & did not care, we espied Mr Aronsen on a spare one. He was a nice man & picked flowers for me & explained in dumbshow by signs, we saw Gausta, the highest peak in Norway, the Tinfos at Hitterdal, & we arrived at Hitterdal at 8 o'clock & ate tried thumpy. Hotel wood as most of the houses are tiny single beds — Thurheim Hotel

Thursday 3rd - Breakfast at 8. Ronald Ted & I started off to see a waterfall & had a lovely walk thro' the woods, the Tinfos was very picturesque, a large sawmill on one side, we came back on the other side of the river & went for a walk up the road, when we got back Papa took me to the "Tinfos" to see the second fall which we had missed, it was much finer

& we had a delightful walk getting photos - & saw Miss Annie Macbeth, lunched hurriedly off Salmon & left Steamer at 1.30, the lake was narrow but hills were wooded & very high & on either side, & 4 portages - Birchbark carried a miscellaneous cargo of cows, sheep, dams etc. They were brought out to the boats at different places & hauled on board in most casual manner at one place two old peasant women had a lively tussle with their respective cows. In pleasant costume consists of a wide black skirt with a red band across the hem. Red sort of cross belt & grey jacket & broad belt worn round the hips, white sleeves, handkerchief over the head - We were the only Europeans on board - arrived at Wilfords at 5 o'clock, drove to Ashens hotel about a mile from dock, Bedrooms in a sort of addition to the old house with a pleasant broad balcony - Tea over &

Friday Aug 4

Cooking the eggs I spoiled a very light
dill - I succeeded in ordering tea
in Norwegian - P. Y. & I went for a walk.
Mamma showed us on our return a nice
walk up the hill beside the house, we
took 2 photos, one of a heavy load &
one of the country - ate a huge tea &
fruit & cloudberries - Walked down to
see the boats: a difference of 178 ft
between the 2 locks, 16 locks = 2 dams
considered very fine but we missed it
looked cleaky - nothing to see in the
place but the country around is lovely
I feel much better since I came here
I am awfully hungry -
Thursday - 4th Got up about 6 & went to take
a photo of the canal, with a view of the dam &
a waterfall that Ronald wanted, a lovely morn-
ing. The prop. of the Aaheim Hotel had an animated
discussion about Canada with us in Norwegian
& bad English - The steamer called at the dock
for us, we were the only English on board
After leaving Ulefos the boat goes through

16 locks, marking a difference of 178
feet between the level of the two lakes.
7 locks are required for the princi-
pal blasting for ~~a~~ dam & ~~a~~ canal &
80 ft as ~~formerly~~ ordered for the locks
could be found a ~~more~~ location such
Canada was constructed as a founda-
tion for a dam & immense quantity
would be required. Many woods & escaped
the ravages of fire. We left Ogden, the
scenery was very pretty for several
miles - Lake Horseshoe was very grand
the cliffs very steep, but Lake Bandak
was as wilder, unfortunately we
even went down early & it was
too dark to use my camera - at
Lisaet one of the passengers from the
Albano, a Moorish man who sat at my
table & wears Blue glasses came on
board. The entrance to Skien was
magnificent but unfortunately too
dark, no other Europeans people on
board - at Skien Ronald & I walked

up to the Hotel Bandak but could not
get rooms there, but Hansson (as we
after found his name was) a young
Englishman were very kind in offering
me his rooms, but we knew we could
get on somehow & so he & his friend
slept at his annex to Hotel & the
rang & the others at Folkedalens &
we dined at the "Bandak" - I had
quite fun after dinner with our American
acquaintance, he told me he was "travelling
on a wanted a "consort" more than a
wife as he had to entertain a great deal
also that he admired american ladies
ladies (he used previously said I was
the 1st C. he had met) & - I blushed, one
up to my eyes, I nearly choked with
laughter at the conceit of the
man. Her was overpowering.
Saturday - 5 got up early, R. & I had decided
to take photos but it was pouring Mamma &
I breakfasted alone at the Folkvang, the
others turned up about 10 & we made a

started in the rain, we engaged a caleche carriage & started for Delphi. It is to Delphi Kil. for 150 Kls, we were sorry to leave Athens as it is a very magnificent, new road wound up the hill sides in zig zag curves & has wild views. Evening in a nasty row for a blind impressed us very much we visited the museum immensely but in the afternoon it rained off, lunched at Hotel Poets. Mo. (very good) took a couple of Pho. got to Gurgeral about 6. had a very funny tea of various kinds of cold & canned meats & hot bread at the end of the place of desert.

Sunday 6th Some nice English people, Capt. Mrs Lampson 77th Fusiliers & a friend - just as we were starting to climb a high hill opposite the Hotel Mr Pransson appeared in search of Vaseline, Ronald had had a horse and rode scrambling up to the top of the hill ( ) Ed did not care for it but we had to make him come with us, he got to

Mr Topp & himself & it was a steep climb, the top was covered with moss, snow all round us & a large lake ( ) about 3 miles wide - Got home at 3 o'clock & had a rest while the others went out fishing with those Englishmen who lent Papa a rod. Mr Jamieson & Miss Whitworth called before dinner & stayed till 8 o'clock & confided his woes on matrimony to me & did not agree with him - We had a very pleasant day.

Monday, 7th Left at 9. Papa is sorry he did not bring a rod - arrived at Rotten Row (very poor) & had to wait a long time for it Mrs Whitworth & Mrs Jamieson acts as our Chaperons. The drive to Hauldalen was very uphill we walked along wee hills very wild & heathy any quantity of sand, the hotel is under the management of the Laurvik Co & is very good, our rooms were formerly Setchens - There were two rooms with a cabin off them each containing a bed

Tuesday 8th

friends of Miss Whitworth.
Tuesday 8th Scenery very fine, walked
over to summit of Mt Bass, beautiful
roads & clear weather but slightly hazy
owing to the snow drifts as we descended
the hills the roads curved like serpents
& finally near Poldal Mill was the
climax of road 1000 ft almost a straight
drop on zig zag curves. It began to
rain slightly & by the time we reached
Poldal Mill was a heavy shower — the
scenery was magnificent — Mt Cupcake & the Cradle
a hot lunch, to Breffonds Hotel 3 Eng.
miles further on, very comfortable place
beautifully situated. walked around the
point on the Upper Poldal Road. Lovely

Papa & Ronald walked up over the hill
3800 ft the most fevered ascent
seeing as little as what we could make

out was lovely. Papa & Alfred rode all
after we began to go down hill the scenery
grew magnificent, dark valleys &
the road winding on & on unfortunately
there was too much mist to take photographs of
we lost sight of the grandeur of the scenery the
valley of the with a narrow rushing
stream, steaks of snow & quantities of dwarf pine
trees looked very wild, at Sal. we had
lunch, whilst partaking norwegian dress the chemisette

10a R & I walked to Mr Skarnes for Berashad & got some photos - went over to Mr glacier (1 mile) with Sandhes & walked up to Mr glacier about three miles from the Shore, being nearer the sea than any other Norwegian glaciers, the path was rough but not a hard walk, several small farms lay on the valley, the road was lovely the snow sheets & stream all combining to make a unique picture, R & I took their photos - & had a rest just below the snow, on our way back we met Papa &c & Ted & took a photo of some hay coming down on Mr Tron from the Mr - Mr Tron we had actually seen the night we were 8d constantly you see the snow stretching down from a steep valley hill - the cows are taken up to the Mr - for six weeks in the summer & cheese is made up there & sent down to the valleys as well as wood & hay - We had a very pleasant walk home, this day was the first time

cussants from a little peasant girl, we only
got to the hotel about 3 oclock Ted & Donald
went for a wild & I wrote letters. Odda is more of a
village than any place we have seen yet, has sev
eral hotels & a few shops, Hammers
elves shops & also making out I am disappoint
ed in the Norwegian selves. Bracelets
seem to be the correct thing to buy, We
eat up in a balcony after dinner & then Mamma
found that she had lost her bracelet. She
had had it made from her fathers watch
chain & valued it very much, we did all
we could in advertising its loss & looking
for it. But I am afraid she will not recover
it unless some Norwegian finds it as they are
generally very honest.

Friday Aug. 11th - Mamma & Donald went
back to the Guarbrae to look for the bracelet
they took a guide who they said looked
hard & well & had no luck, the captain of
the steamer said he would look out for it.
& they did all they could, Mamma is very sorry
about it as she valued it so much as association

Papa & I breakfast with Sir Ted. Montague Bloch
& his sister, they seemed very nice. Papa liked
Sir Frederick & talked to him about fishing
& his Bloch sketches, Papa & Ted went off
to Bergen 3 boat at 11 o'clock before Mamma

carriage & we got off soon after we landed
much to the surprise of some English people on
board who had taken my upon G to telegraph
for their carriage to meet them, The wood
was not so pretty as most of the country
we passed but the precipices were, we ascended
one very high hill with a waterfall, at Vossevangen
we found a large straggling village with an old
wooden church. The Hotel Fleischer was a
large building, we had a most comfortably room
than we have had for a long time. Mr did
not care for the food much, milk was better
than we have met before. Roald went to
sleep he has lice, Mamma & I went out
to take photos. we saw the church & a funny
font in the form of an angel with a hat
shaped dish in her hands that was
let down in front of the altar. Papa & Ted came

August 13th - went to church in the schoolroom by chaplain, four clergymen, a clergyman daughter one shady religious young man & ourselves formed the congregation - talked to a Mr. Turner, a friend of Bishop of Toronto's & seems more in the boys' emigration scheme, decided suddenly to leave at 3 for Stalheim we had intended staying all night at Voss but did not care for the hotel, & walked a good deal, the scenery was pretty & near Stalheim very wild, we had to at Vinje & passed a nice looking one about 7 miles from Stalheim so we we had half a mind to stay, a very steep hill leads up to the hotel, a pine building with a large Ben hall - we had rooms overlooking the hall on a gallery, lots of people here, saw several men we had met before, a string band played in the gallery, very tired as we only got to Stalheim about 8.30, The waitresses all look so nice in their native dresses -

Monday Aug. 14th The weed is lovely in front of the hotel which is situated on a spur of the Hardodal Valley a narrow gorge which extends for about sex miles, the hills on 5.000 ft either side are bare at the top the "celebrated is particularly bald in appearance We took some photos & walked up the hill back of the hotel & ate blueberries, the band played during dinner close to us, a large party of cooks tourists came in to lunch, they were personally conducted at a Gilt edged rate, a man to whom Papa had spoken several times before sent them in, new clothes & flies & we went off fishing up the river but had not very good spot as there were not many good pools we four had a very lazy time lying about on rocks, & enjoyed the afternoon very much, we came in rather late, the people kept me very busy asking questions after dinner Papa introduced his fishing friend Mr. R. G. - a rather agreeable man in bad health he has been studying medicine in Edenbro' - I rather liked him, he said

He was coming out to Canada some day, after I had gone upstairs they commenced to dance & H. asked Papa & get me to come down & dance, & chose the floor was bad & we had heavy shoes on but we managed to get thro' 3 & 4 dances he was partly Russian so he said he could help dancing well –

Tuesday Aug. 15th – Left Stalheim at 7.30 for Gudvangen a lot of people left at the same time, we Sailed off, we had short cuts instead of sticking to the zig zag road Papa led us down first & met us at the view it was very imposing & the drive pleasant, we got to Gudvangen about a quarter to ten & had to wait for our boat, the morning was pleasant but about Twelve oclock it began to rain, we lunched on board at 12.30 & got off to Balholm at ½ past 3 where we spent an hour or so waiting for our boat to Laerland, we went to the hotel & had a rather melancholly time as there

was nothing to read & learned to hard
to go out. Afternoon on the boat things were
no better. Ronald, a young man whose name
did not know but whom we had met several
times before & sat down in waterproof sheet
until we were soaked thoroughly. Some
pleasant people sat near us & had it not been
for the heavy rain I daresay we would
have had a very pleasant afternoon
We were wet & hungry when at 6 o'clock
we got to Imundals Hotel Gaarland, the tea
was better than usual & afterwards a fiddler
came to the dining room & some of the servants
danced national dances for us ("the Spring" &
the "Hammes") & a horse. Bride & bridegroom
came in, the girl looked very pretty in her
tall crown. The whole performance was
very simple, after the dancing had been
exhausted they sang for us. It was very
cold, talked to a tall dark lady multumomica

a couple of miles further thro' a farm we got to the smalles one Sulphellen Jaws very impressive, we got as close to it as we the walls pouring out from under the mass of ice, a couple of avalanches of snow came down while we were there, the gravel grey rocks at its base look very rugged sorry we had such a short time to stay here as it would have been nice to have gone up further, the farm land looked better than what we had seen before. Got back to the hotel just in time to get on the steamer at 2 o'clock, liked that hotel very much. The scenery was very grand, high steep hills rising out of the lake. Talked to a Miss , her father & mother, she is prof. of music at Holywell College, quite a young girl (25) very pleasant but the rest stood aloof as I had lost my car Papa talked to a Base Englishman & his lady, he is going to Eldorado so I daresay we shall see them again — Papa's clergyman & his daughter are on board, he is a

Thursday aug 18th arrived at Bergen at eight o'clock. The morning was very clear & we saw the docks & land of the distance — Bergen has much the appearance of a dutch town, narrow streets & the pointed roofs of the houses on the Tydskebryggen (german) quay are very quaint the hills on both sides are very high — We spent most of the morning in the hotel, Ronald left his cape & overcoat at Garland & Led his bag at Balholm, Ronald & I went out I saw some of the town, In the afternoon he & I went out & took some photos, & went to the Hanseatic museum, a quaint old house of the 15th century German merchants, The owner of this house was regular characters, The son is a musical student in Paris, he sings he informed us his father evidently is a crank on the Hanseatic collection. The merchants did not marry or allow their employes

to marry, Mr Jones when any of them killed a man (ie an apprentice!) was a barrel of beer, Mr Lads were beaten with a stout rope with nails on the end, – We met Papa. clothes balls. The old fish women wear
headed caps & look very quaint with
huge baskets on their backs, bought a
few more things & packed up ready to
go on board at 12 - The time came all too
soon! The Eldorado seems to be a fine cargo

Mr Lindo came on board & we had a
chat, he said Mr Thos Dupont was
following in his wake & that he
had seen his name in the visitors
book in several places —

Sunday Aug. 20th Rather rough. Talked
to the Dempsieres & some men till we all

It was rough I thought it was not worth the effort of keeping up for so short a time & in consequence had a peaceful rest Read novels - Mamma & Ted rode over to Hull all right -

Monday Aug 21st - We got to Hull about nine o'clock. Such a dirty windy place said good. Wednesday Aug. 23rd. Very glad to leave Hull I am sure the drains must be wrong, horribly unhealthy I should think. We went via Leeds as the York races are on, Leeds looked like an immense town from the railway carriage windows. Got to Harrogate at 2 o'clock, went into

the nearest Chemists & asked if they could recommend any lodgings, they suggested Cold Bath Road, as we strolled up there I came up a nice looking house with apartments to let We fixed upon one we had seen, we went in liked them & took them selleng 2 nice bedrooms 3 guineas, very happy go lucky! Then we went in search of something to eat, got our luggage & settled ourselves. Dare sdarsay we will like the quiet as we have not been in lodgings for a long time as we dont know a soul here we can do as we like - Harrogate looks bright & is airy & gracing the stray & common lies on the centre of the town

Thursday Aug. 24 Went into town, this is the height of the season, lots of nice looking people, Ronald wanted to get some things & was tired so we did not go out till late in the afternoon, I think we will like this place, Letters from M. Hutchinson Mrs Marshall, Mrs Edward Cleghorn

developed some photos, 24 so far. Not 12 are not very good Mothers are better than I expected, I shall have lots to do here with developing so many, I think I have about 8 dozen N. Norway.

Friday Aug. 25th. Went to town with Papa printed blue prints for Ronald to take away. He & Papa left at 12.20 we shall miss Ronald very much, he is a nice boy Tho' careless in some things & gathers young for his age, I hope his last year at College will do much for him, gave him my camera, he has been nice about helping me with it & would I know like to use it in Kingston, kepaels to-morrow on the Lake Ontario - Papa went down to see about the trunks being put on board, they were sent off. London, he did our marketing I came home after lunch, after lunch we all went to sleep & then out for a walk Mamma & I went to St. Dennis Avenue, Mamma is to take massage balls & sulphur hot the cold are to drink

16 B Sulphurshot in Mr early morning

He said I was to eat little meat no sweets
or potatoes, never feed fast or tea sleeper
for more than 2 minutes & woollen un-
derclothing. I shall obey him in about
half these items. Je had a lazy evening
finishing developing more photos.
Saturday Aug 26th Got up early & went
down to take our drinks. 8 Oz. hot then a
walk for 20 minutes & another 8 Oz.
The 1st is bad enough but the 2nd is
positively cruel, lots of people drinking
at the pumps House at 10 o'clock I went
down to take my bath. The water is black
but very pleasant, I think it will do
my complexion good, when I got in I had
miscadventures for ½ hours until Mamma came
in, after lunch we had a nap & did some
mending & then T. & I went down for my
Nhis drinks & did some shopping. Papa came
back about 6-30, Capt & Mrs Hutchinson R.A.C.
& Major, Mr & Misses Evans (Montreal) were

sailing on Lake Ontario so he will
have some pleasant companions. Papa
said he had some trouble finding our trunks
for coursed on Ronalds Wilkes & Voces all come
Sunday Aug 27th Went for my drive back
part & met Mamma after her bath &
massage. Her woman Mrs Severing seem
very capable, Ted & I went to St Mary's
near here, Church very full, Costs nice &
old outside but restored nice & all sides inside
we walked thro' the Boys Valley gardens
I stayed in all afternoon & wrote letters
Reddome. It is very pleasant having a
quiet time here & no one to talk to, Since
we came to England we have never been
alone & for a change it is very pleasant.
Ted has improved greatly since he has been
with us, at first he had so little to say.
Monday Aug. 28th - Got up early & drank
two glasses & hot sulphur water. Then I
did our little marketing. Before 9 o'clock
after breakfast Papa & I went down & took
our baths, came up & rested Read till

lunch, went at 2.50 to Knaresborough about
3½ miles from here. It turned out to be a charm-
ing little town, the castle is a ruin on the
crest of a hill, one part only containing
rooms, the rest scalloped walls & towers, the
creed O. The hill was extremely pretty
the small river Nidd winds about &
a picturesque little village nestles at
the foot of the hill, on the opposite bank
are woods leading to the dripping well.
We sat on the hill & a man told us something
about the river & the square house below
us, he turned out to be a most intelligent
man who lives in Volgelby in N. Wales, he
had lived here as a boy & had explored the
Mediterranean passage from the house in
the town where Cromwell slept to the castle
he amused us very much & his remarks
particularly on clergy, he said he was a
churchman but thought disestablishment
would be salvation for the Ch. of England,
he said a debate was often raised at being
asked to dinner & the local gentry & Irish of

that his belle had swelled She cared to associate with no one below the rank of an earl his daughters were far too proud to talk to ordinary mortals his sons must go to college etc. His manner was very amusing his remarks had a real deal of truth in it — He appeared to be a self made man his remarks were very sensible — The Castle was besieged during the Cromwellian wars & dismanted The whole scene from Castle hill reminded one of an Italian scene. The cockhorses & steep roads all looked singularly unenglish — Passed the dripping well, a pretty walk to it & Mother Shipton's cave, returning to Harrogate at 5.47 — developed most of the evening

Tuesday Aug 28th Took our morning doses at 7.30 Started at 11.15 for York, 65 miles. There & Back went there seven years ago on our way to Scotland Drove over the Cathedral which covers more ground than any other in Eng. The Colours & windows impress one very much their great height, the Abbey contains many interesting relics, The Chapter house is the finest in Eng. in the largest vault of a central pillar —

of the Decorated period early part of 14th century
The chancel has a wonderful carved
stone screen, the reredos was when we saw
it before a handsome Wood & Terra cotta &c
but to my mind it has been ruined by being
colored & gilded - The length of the cathedral
is 486 internally - We lunched & wandered
about the narrow streets, then went to see
St Leonards Hospital, complete ruins with some
ancient roman sarcophagi in the lower part,
close to it is the Multangulas Tower.
one of the most interesting remains of the old
Roman Castrum, a 10 sided Tower
which formed part of the old Roman
city wall, the Museum contained
good natural history & geological specimens
with a few Roman remains - M. & Edward
Jo a drive while P. & I walked round the walls
Jon Boolham gate to monk bars & back to the
minster & home round back St - We went to Evensong.
The music was good - Left at 5.45 & got home
in less than an hour - Developed -
Wednesday Aug 30th Our usual mild Wednesday

Wed. Aug 30

got ous baths before eleven, strolled into the Bog gardens. Took so long deciding where to go for the afternoon that eventually became too late to go to Bolton, Leeds, or Ilkley, & I think we were all secretly pleased as we were all tired. Papa & I went out to see High Harrogate, I had no idea the stay was so large. It is common of more than 2.00 acres, the Queens Hotel looked very nice & I think if I ever came here again I would stay there, we went on a long way as we were on for Knaresboro' Road we decided to walk on this 3½ miles, the road was not very interesting until nr. Knaresboro, the view fr. the bridge is certainly very pretty, we walked in the Churchyard & saw the Smith Slingsby Chapel & monuments, the last one is to Sir Charles Slingsby who was drowned out hunting, his sister is the last of the family who have lived at Knaresboro for 800 years — Wandered about the town & examined some curiosities Got home at 6.20 — Mamma tired — developed, some of my photos. Have turned out well, on the whole I have been more successful than I expected.

Thursday Aug 31st Took an morning exercise & after breakfast went to town & got some things the developer did not come up in time & so any work till about 4 o'clock so Hanna & I did some sewing & talking. Grossmith he was amusing but I think he expected more his sketch of his American experiences was good & some of his stories amusing. Fancy I would have enjoyed his sketches that he gave in Canada last year more but then I missed him both in London & Montreal developed 12 negatives all good, curious that six 3 of the phs. were taken I knew on the wrong side, I am very glad as they were recis'd cold & dark slides — Rudd Callaway, I wonder

that after the mess Mr Gladstonian & D. made of the Transvaal affair Gladstone was over looked to power, it seem's to have been shockingly managed,
Saturday Sept. 2nd went with papa to have wisdoms, & Nellie & Helen Beard staying aunt Mary's fingers were much worse, one of them quite black & Mr Beachamp & Mr Bulling coming for advisability & Campbell. her General Health is good, with the Prince of Wales did not send her & her blood is poisoned & Gaudsh is very ill, aunt Mary has always been kind to us & all our Rel. Relations we like her the best, however we trust that Helen is taking a gloomy view — went at 11.40 to Leeds a very large bright place, shops very good. bought some few things, drove round Roundhay Park about 3 miles & the post Office, prices were low I thought, passed Kirkstall abbey 3 miles & Leeds, had a very pleasant day - got home about 5.30 - developed.
Sunday Sept 3rd went for our morning drinks & at 11 Ld & I went for our walks to the Victoria which I like better than the Montpellier walk,

& Father tied in I started at 3.30 for a walk
with Papa, we passed high Harrogate
& turned off towards Spofforth & finally
got to Plompton Rocks, It was about
3 miles away. The rocks were very strange
& well kept. The farm to which the Rocks
belong looked very prosperous. The lake
needs cleaning out. Each of these Large
rocks stood alone tho' from a distance they
looked like a long cliff - got home about 6.30
The "Quarry" is a great addition to Harrogate
& in future will be kept in better order, at present
cattle graze over it. Was rather tired.
Monday Sept 4th Drank 16 oz of the mineral Water
water. Mamma went for her bath, Printed till
10.30 Ran went with Papa to see Mamma off

Ripon & then drove 8½ miles. P. & I went at
11.25 to Leeds where we looked for a camera
& went to Walkinson, Harrison & Briggale
& to another place. W. looked like a capital working
shop. liked the owner. His camera cost 4 guineas
was rather taken with the idea of having aluminium

fittings till I found that Mr Highlost was
made Mr metal bulge - Looked for some castors
lunched at the same place on Commercial St -
then went to Vevers where we found a camera
for 63/ we liked it, Vevers Guarranteed he
wood as well seasoned, & had Mr workman
who made it down to see us & originally
bought it, the lense taked Rectilinear cost
cost 35/ case 7/ slides each 12/6. Total
£7.10.6 - I dont think we could do better
anywhere, the work & wood looked good
& we thought it was cheap for the value
of the goods - I ought to get good pictures
with this one, it looks nice & will not be
very heavy. my tripod I had before, it cost
16/ it was awfully kind of Papa to get it
for me. I want to keep an account of what
it costs me - Bought Mamma a Rilles disk
with 3 black handles. To-morrow is her
26th wedding anniversary, She & Ted enjoyed
their day immensely, Trossachs is considered
the finest ruin in England, Papa & I went
there 8 years ago on our way to Scotland.

I had some washing & had to take them out to dry as my toning mixture had not come from Perkins, very annoying & sun - Rose to Spotforth via Rempstone Rocks, beautiful roads, we turned off at Spotforth, drove thro' West past Redding Park Sir Percival Radcliffe's place. It looked like a nice estate, bought some mushrooms from a woman on the roadside horse was tired, I got out at the Queens Hotel & went thro' town to upbraid Perkins for his tardiness - developed the last four Norwegian negs I took 96 of which 10 were total failures & 15 only passable I have about 71 good ones - about 50 of which are unscratched & fit to give away I think I have been lucky beyond my wildest hopes of course if I could take them over again I would do quite differently
